Demo Client · DEMO-0004
11 November 2026 · v1.0

# Handover note

> Demonstration package built from synthetic data.

**Client:** Demo Client · **Engagement:** DEMO-0004 · **Final run:** `cs_20261111T175902Z_9423c6`

## 1. Open this first

`00_START_HERE` opens with one click in any browser and holds everything below. Nothing has to be installed.

| If you are | Start with |
|---|---|
| The committee chair | One-page summary |
| The credit committee | Presentation, with speaker notes |
| The specialist | Report |
| The analyst who checks numbers | Workbook (Control panel first) |
| Whoever wants to explore | Dashboard |
| Credit officers | Scoring calculator |
| The IT team | Scoring pack |
| The auditor | Methodology |

## 2. What was handed over

| # | Item | File |
|---|---|---|
| 1 | Final report | `01_DemoClient_CreditScoring_Report_v1.0_20261111.pdf` |
| 2 | One-page summary (tear sheet) | `02_DemoClient_CreditScoring_Summary_v1.0_20261111.pdf` |
| 3 | Results presentation | `03_DemoClient_CreditScoring_Presentation_v1.0_20261111.pptx` |
| 4 | Results workbook (all numbers) | `04_DemoClient_CreditScoring_ResultsWorkbook_v1.0_20261111.xlsx` |
| 5 | Model documentation (methodology) | `05_DemoClient_CreditScoring_Methodology_v1.0_20261111.pdf` |
| 6 | Handover note | `06_DemoClient_CreditScoring_HandoverNote_v1.0_20261111.pdf` |
| 7 | Scoring pack (scorecard specification, Python scorer, SQL, test cases) | `07_DemoClient_CreditScoring_ScoringPack_v1.0_20261111.zip` |
| 8 | Scoring calculator (opens in any browser, no software needed) | `08_DemoClient_CreditScoring_ScoringCalculator_v1.0_20261111.html` |
| 9 | | `09_DemoClient_CreditScoring_Dashboard_v1.0_20261111.html` |

| # | Item | File |
|---|---|---|
| | Interactive dashboard: one HTML file, opens in any browser | |
| 10 | Data-quality reports | `Data_Quality/ (open the .html files)` |
| 11 | BI exports for Power BI / Looker Studio | `BI_Exports/ (CSV, long format)` |

## 3. Who does what

| When | What | Who |
|---|---|---|
| This month | Install the scoring pack and pass its test cases | IT |
| This month | Train credit officers on the calculator and on the decline reasons | Head of credit |
| Next three months | Score alongside the current process, without deciding | Head of credit |
| Each quarter | Review score and input drift against the agreed limits | Model owner |
| Each year | Validate the scorecard independently | Model-risk function |

## 4. How the files work together

- The **scoring calculator** opens in any browser and scores one application by hand, with its reasons.
- The **scoring pack** holds the scorer in Python and SQL, with test cases that must pass before go-live.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **workbook** recalculates: choose a cut-off in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

## 5. What we need for the next run

New applications and their outcomes once they mature, any change in lending policy or in the data sources, and the decisions on fairness and on the cut-off.

## 6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).

## 7. Contact
